

# Declaration from the manufacturer/supplier of the chemical products used in the reusable menstrual cup

This declaration is to be filled in by the manufacturer/supplier(s) of the chemical product used in the reusable menstrual cup. The declaration shall be based on the best of the manufacturer's/supplier's knowledge at the time of declaring.

lanufacturer/supplier name
lanufacturer/supplier address
lame of the chemical product:

I declare that I will keep the competent body informed in case of any changes to our products or processes which influence the validity of this declaration

[insert in the following Table 1 the information about ingoing substances in the ink/dye that are restricted according to EU Ecolabel criteria 4.1, 4.2 and 4.3.1. Information about impurities shall be included as well, when available]

Substance name (1)	CAS no.	Weight in the chemical product (g/100g product)	Hazard statement codes

I declare the following statements to be true:

## <u>Sub-criterion 4.1: Restrictions on ingoing substances classified under Regulation</u> (EC) No 1272/2008

- I declare that the product does not contain ingoing substances (added as such or in mixtures) that are assigned any of the hazard classes, categories and associated hazard statement codes stated in Table 2 in Annex II to the Commission Decision
- □ I declare that the product does not contain ingoing substances (added as such or in mixtures) in concentrations greater than 0,010% (weight by weight) that are assigned any of the hazard classes, categories and associated hazard statement codes stated in Table 3 in Annex II to the Commission Decision

 $\square$  I declare that the chemical product contains titanium dioxide (nano form)

Titanium dioxide (nano form) can only be used as pigment. The ink/dye cannot be used in powder or spray form

I confirm

### Sub-criterion 4.2: Substances of very high concern

- □ I declare that the product does not contain se ingoing substances identified as "substances of very high concern" and included in the list provided for in Article 59(1) of Regulation (EC) No 1907/2006.
- I declare that the latest list of SVHCs has been used on the date of this declaration.

#### Sub-criterion 4.3.1: Specified excluded substances

- I declare that the chemical product does not contain the following ingoing substances (alone or in mixtures):
  - 5-chloro-2-methyl-4-isothiazoline-3-one (CMIT)
  - Alkyl phenol ethoxylates (APEOs) and other alkyl phenol derivatives. Exception:

 $\Box$  I declare that the chemical product contains sterically hindered phenolic antioxidants with molecular weight (MW) >600 g/mole

- Antibacterial agents
- Formaldehyde and formaldehyde releasers

- Nitromusks and Polycyclic musks
- Organotin compounds used as a catalysts in the production of silicone
- Parabens
- Phthalates
- Substances identified to have endocrine disrupting properties
- Substances considered to be potential endocrine disruptors in category 1 or 2 on the EU's priority list of substances that are to be investigated further for endocrine disruptive effects<sup>1</sup>.

## Sub-criterion 4.3.2: Fragrances

□ I declare that the product does not contain fragrances.

#### Sub-criterion 4.3.3: Inks and dyes

- □ I declare that the product is an ink/dye or contains inks/dyes
- The ink/dye has an impurity content of antimony, arsenic, barium, cadmium, chromium, lead, mercury, selenium, primary aromatic amines and polychlorinated biphenyl below the limits given in the Council of Europe's Resolution AP (89) 1<sup>2</sup> on the use of colorants in plastic materials coming into contact with food
  - It is mandatory to submit supporting information
  - I attach supporting information.
- $\Box$  The dying colorants comply with:
  - BfR's recommendations IX. Colorants for Plastics and other Polymers Used in Commodities
  - Swiss Ordinance 817.023.21 Annex 2 and Annex 10
- The product does not contain ink or dyes

<sup>&</sup>lt;sup>1</sup> Annex 13, available at: https://ec.europa.eu/environment/chemicals/endocrine/strategy/substances\_en.htm

<sup>&</sup>lt;sup>2</sup> https://rm.coe.int/16804f8648

## Sub-criterion 4.3.4: Cyclosiloxanes

The content of octamethyl cyclotetrasiloxane (D4 – CAS no.: 556-67-2), decamethyl cyclopentasiloxane (D5 – CAS no.: 541-02-6) and dodecamethylcyclohexasiloxane (D6 – CAS no.: 540-97-6) in the silicone raw material is \_\_\_\_\_ppm for D4, \_\_\_\_\_ppm for D5, and \_\_\_\_\_ppm for D6 (each substance <100 ppm)

I, the undersigned, hereby declare that all the documents provided to demonstrate the accomplishment with the criteria are true and correspond to reality.
